

blanket certificate issued in Docket No. CP82-553-000, all as more fully set forth in the request on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

FGT proposes to upgrade the DeBary Delivery Point, which is being used by FGT to make deliveries of natural gas to Florida Power Corporation (FPC). FGT reports that the upgrade can be made by modifying the existing inlet header and adding a second 12-inch raiser, a valve, and other minor appurtenant facilities. FGT states that FPC would reimburse FGT for the total cost of the proposed construction which is estimated to be \$71,798. The proposed upgrade would not affect FGT's contractual gas deliveries to FPC under an existing interruptible transportation agreement dated December 6, 1995, which is currently 200,000 MMBtu per day and 73,000,000 MMBtu per year, nor would it impact FGT's peak day delivery requirements for FGT's annual gas deliveries.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the allowed time, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.

Linwood A. Watson, Jr.,

Acting Secretary.

Florida Gas Transmission Company; Notice of Technical Conference

February 26, 1999.

In the Commission's letter order issued on February 10, 1999, the Commission directed that a technical conference be held to address issues raised by the filing.

Take notice that the technical conference will be held on Thursday, March 11, 1999, at 10:00 a.m., in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426.

All interested parties and Staff are permitted to attend.

Linwood A. Watson, Jr.,

Acting Secretary.

[Docket No. CP99-223-000]

Natural Gas Pipeline Company of America; Notice of Application

February 26, 1999.

Take notice that on February 22, 1999, Natural Gas Pipeline Company of America (Natural), 747 East 22nd Street, Lombard, Illinois 60148, filed in Docket No. CP99-223-000 an application pursuant to Section 7(c) of the Natural Gas Act for authorization to acquire certain pipeline facilities in Texas and Oklahoma from Caprock Pipeline Company (Caprock), all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Natural proposes to acquire by purchase from Caprock a 1.88 mile segment of Caprock's 20-inch pipeline known as the Beckham-Wheeler Pipeline, of which a 1.23 mile length is located in Beckham County, Oklahoma, and a 0.65 mile length is located in Wheeler County, Texas. Caprock has filed an application in Docket No. DP98-735-000 to abandon these pipeline facilities to Natural. It is asserted that Natural will operate the facilities as part of its interstate system and will assume all service obligations and operational and economic responsibilities for the subject facilities. It is stated that there is one firm transportation service using these facilities and that Natural will provide open access transportation service to shippers requesting service pursuant to Natural's FERC Gas Tariff.

It is explained that Natural has agreed to purchase the facilities from Caprock for \$513,574, to be adjusted to the actual net book value as of the date of the transfer of the facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 19, 1999, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedures, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Natural to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.
